

## BY THE GOVERNOR.

### A THANKSGIVING PROCLAMATION.

The recurrence of each autumnal season, bringing anew the substantial tokens of Divine favor, reminds us that we should render to Almighty God public acknowledgment of our gratitude for His manifold blessings.

Now, therefore, I, William E. Smith, Governor of the State of Wisconsin, do hereby appoint **Thursday, the 24th day of November**, instant, as a day of Public Thanksgiving and Praise. Let the day be observed by the suspension of public and private business, and by the holding of appropriate religious services and social festivities.

In testimony whereof, I have hereunto set my hand and caused the Great Seal of the State of Wisconsin to be affixed.

(Great Seal) Done at the city of Madison, this seventh day of November, in the year of our Lord one thousand eight hundred and eighty-one.

WILLIAM E. SMITH.

By the Governor:  
HANS B. WATSON, Secretary of State.

The coming session of Congress will be interesting, lively, and prolonged.

Baltimore has taken an important step to reduce the death rate in that city—having forbidden the sale of toy pistols. Now let them begin on paper-covered cigarettes.

The Indianapolis News says the large falling off of Republican votes in Wisconsin is attributed to the bad roads. "The Democrats do not mind that, they are on a bad road all the time." And the road is getting worse all the time.

Patti gave a concert in Steinway hall, New York, on Wednesday evening, and the receipts were ten thousand dollars. Five thousand five hundred of this was given to the Michigan sufferers. It would pay Patti to sing for charity every night.

In politics, Hannibal Hamlin has held office longer than any other man in the United States, having been constantly in the public service for forty years. In Old Fellowship, the late James L. Ridgely, of Baltimore has held an important and high office longer than any other number of the fraternity in the world, having been Grand and Recording secretary of the Grand Lodge of the United States since 1842. He was the most prominent Old Fellow in the world, and next to Thomas Wilkey, was the most widely known. He was 80 years old at the time of his death on the 16th.

Pennsylvania has a second James R. Doolittle. He ran for State Treasurer on the Democratic ticket at the recent election. He was once a Whig, then a Know-nothing, then a Democrat, then a Republican, then a Democrat to try it over, and then a defeated candidate. Doolittle has been a Barnburner, a Whig, a Republican, a Johnson Democrat, a full-fledged Democrat, a Greenbacker, and finally nothing. The experiences of men who attempt to go the rounds of all political parties, are not the happiest in the world. They generally become political cast-aways.

That man whom the people of this country will always delight to honor—Frederick Douglass—is said to be spending his latter days in comfortable prosperity. He has \$100,000 or more, and an annual salary of \$7,000, and his leisure time is given to lecturing and writing. His has been one of the most remarkable lives in this country. Born in slavery and reared under the lash, he grew up to stout manhood before he knew what personal freedom was, and he only gained that by a fugitive from slavery. Since then he learned to read and write, and worked, and tugged and toiled, and within the last thirty years he has elicited the applause of both Europe and America by his burning eloquence. He has come up out of much tribulation, and is an honor to the country and the time in which he lives.

The North American Review for December is in all respects a good number. The writers without exception are eminently competent for the task assigned them, while of the subjects discussed, there is not one which does not possess a living interest. Indeed, were one called upon to enumerate the contents that are to-day exercising men's minds, those treated of in this number of the Review would certainly occur to him among the first. The most important and most opportune of all the articles is one by the Hon. John A. Kasson, entitled "The Monroe Doctrine in 1881." In this statesmanlike paper, or pronouncement, as it might not imply he called and is certain to be regarded by foreign publicists, the obligation of the United States government to effectually assert its supremacy throughout the Western Hemisphere is demonstrated both by the arguments of authority and precedent, and upon the grounds of reason. Then follows a discussion of the Death Penalty, conducted by the Rev. Dr. Cheever, Judge Samuel Hand and Wendell Phillips. The policy of Mr. Gladstone's Government toward Ireland is strenuously defended by Mr. H. O. Arnold-Foster, son of the Chief Secretary of Ireland. This paper is confessedly an appeal to the judgment and the sympathy of Americans in the struggle now going on across the Atlantic, and is a graceful, practical admission that British statesmen are not indifferent to the enlightened public opinion of the United States. Four physicians and surgeons of the first rank, namely: Drs. W. A. Hammond, John Ashurst, Jr., J. Marion Sims and John T. Hodges, review the history of Presi-

dent Garfield's case. Finally the Hon. David A. Wells treats of Reform in Federal Taxation.

## RAILWAYS.

**Secretary Kirkwood's Supplementary Report.**

WASHINGTON, D. C., Nov. 17.—An addition to Secretary Kirkwood's annual report was finished to-day, comprising an abstract of the annual report of the bureau of railways. During the last fiscal year about 6,000 miles of subsidized and land-grant railroads subject to the supervision of the bureau have been examined, and their books (especially those of the Union Pacific and Central Pacific roads) carefully compared with the reports rendered by the companies. He says "Although the past severe and protracted winter was accompanied by unusual drought and storms, which destroyed much property and materially increased the expenditures for maintaining the same, it was noticeable that the substantial improvement in the property of the roads in which the Government has a direct interest had been made and the general reports rendered indicate a marked increase in their business." The gross and net earnings of the Pacific roads for the year ending June 30, 1881, were as follows: Union Pacific—Gross earnings, \$22,765,732; operating expenses, \$11,474,910; net earnings, \$11,290,822; total number of miles operated, 1,819. Central Pacific—Gross earnings, \$22,883,314; operating expenses, \$13,502,504; net earnings, \$9,380,810; average number of miles operated, 2,624. Northern Pacific—Gross earnings, \$2,931,802; operating expenses, \$1,964,157; net earnings, \$985,645; number of miles operated, 754. The last annual report of the operations of the Texas Pacific road has not been received at the department.

Secretary Kirkwood reports, however, that work upon this road is being pushed rapidly forward, and it is anticipated that the line will be completed and trains running to El Paso the last day of January next.

The secretary suggests that the Tinian act of May 7, 1875, should be so amended as to embrace the subsidized portion of the Kansas division of the Union Pacific railway.

## THE NEXT HOUSE.

WASHINGTON, D. C., Nov. 17.—Mr. James R. Davis, of New York City, has appeared here as a candidate for the position of Sergeant-at-Arms of the House. His candidacy is contingent upon the success of Hancock for Speaker, whose friend he claims to be. In the event that Hancock fails to secure the Republican nomination, Davis will be a candidate for the New York spot. Otherwise he will not be a candidate.

The latest piece of Speakership gossip is that Hancock and Keifer have agreed to unite their strength as against all Western candidates. Mr. Dannel, of Minnesota, it appears, is relying upon some New England strength for the reason that he is a native of Maine, and will endeavor to draw from the support of Mr. Reed, of that State.

## TROUBLESOME MINERS.

WHEELING, West Va., Nov. 17.—Last night Governor Jackson received word from Charleston, Kanawha county, that a mob of 350 striking coal-miners at Cannellton, in that county, had driven out sixty-five miners who had been employed to take their places, and that serious trouble was imminent. He accordingly telegraphed to Colonel D. E. Ruffner, of the State militia at Charleston, to go to Cannellton and investigate the nature and extent of the trouble and report at once. He also authorized Colonel Ruffner and the Attorney General to call out the militia, acting in conjunction with the sheriff, to order out the local militia. To-night Governor Jackson received the following telegram:

CHARLESTON, W. Va., Nov. 17.—Gov. Jackson J. E. Jackson went to Cannellton to-day. The sheriff and prosecuting attorney believe there will be trouble, and the sheriff has summoned the Hawk's Nest Militia to Cannellton to preserve the peace, and I have telegraphed Colonel Appleton to have the other companies ready in case of need. I directed Appleton to notify company commanders to be ready for orders, and himself to go to Cannellton to see what might be needed, so I did not need your orders to St. Clair.

D. E. RUFFNER.

## THE STEAMER EXPLOSION.

**Six Lives Lost by the Explosion on the Steamship Solway.**

DUBLIN, Nov. 17.—The explosion reported yesterday occurred on the steamer Solway, not the Severn, which was towed into Kingstown harbor last night, and was not caused by dynamite, but by the bursting of a barrel of naphtha oil, which ran along the deck and caught fire at the stove in the steerage. Six persons were enveloped in flames, and burned to ashes—five sailors and one passenger. Five other persons left the steamer in a small boat, and have not been seen or heard of since. The disaster occurred at 6 o'clock yesterday morning, twenty miles off the coast, and all day long the steamer lay at the mercy of the waves in a terrible storm, the crew and the remaining passengers fighting the flames which continued to rage in the steerage. Between 5 and 6 o'clock yesterday afternoon a pilot boat, attracted by signals of distress, put off from the shore. The pilot went on board, and the vessel was steered for Kingstown harbor. A ship fell in with the steamer about the same time, and the mained near her until she reached the harbor. When the harbor police got on board, a most heart-rending and horrible scene presented itself.

The portion of the vessel destroyed by fire was a blackened mass of burned debris, and the fire still burning, where the crew had been unable to extinguish it. The charred remains of six persons were laid out on the deck, and many wounded persons were lying in the cabin. The vessel was towed to the hospital.

The barrel of Naphtha burst on the fore part of the main deck, and the fluid ran in contact with a fire in the steerage. The six passengers, covered with the burning liquid, perished immediately. Their shrieks were awful, but assistance was impossible, the deck being on fire. Two additional deaths occurred to-day.

## PATTI.

NEW YORK, Nov. 17.—So profound has been public disapproval of the management of the concerts that have recently been given by Mme. Adeline Patti in New York that it has come to be generally understood that her American tour would likely be a failure unless some new arrangement was made. A contract was signed to-night between Mme. Patti and Mr. Henry E. Abbey, the terms of which are a sufficient guarantee that in the concerts in which she is to sing after leaving New York there will be no ground for complaint. During next week, and while she remains in the city her management will continue as it has been. In other cities, however, she will appear in concert with orchestra accompaniment, and will sing in costume in separate scenes of opera at each concert. Mr. Abbey said he was paying her a very much larger sum than was ever paid to any artist in America before. The sum he could not mention, any more than he could the terms with which he had been furnished, but he presumed there would be all sorts of statements published, as there were about the Patti-harsh engagement, none of which had been correct. "I begin, as Mme. Patti's manager," said he, "on Monday, November 28, with one concert in the Brooklyn Academy. From there we will go to the Boston Music hall, and from there probably to the Philadelphia Academy of music. I have taken all her contracts, but shall not follow the route she has laid down. She was booked for several small places to which I shall probably not go, but I have not made up the route yet. I think, however, I shall go from Philadelphia to Baltimore and Washington one night each. Possibly we will give one concert in Pittsburgh, then we will go to Cincinnati, and from there direct to New Orleans, then back to Cincinnati, St. Louis, Chicago, Detroit, possibly to Cleveland, and then to Buffalo. I have engaged thirty concerts. Mme. Patti will not sing under any other management during her stay in America. She will not sing in opera, but will sing one act or at least one scene from some opera at each concert. Five dollars will be the highest price for any seat, and the lowest will be \$2."

## CALIFORNIA RAINS.

SAN FRANCISCO, Cal., Nov. 17.—During the last forty-eight hours a rainstorm has passed over the State, enough falling in some places to start plowing.

## IRELAND.

DUBLIN, Nov. 17.—The tails have been cut off of over 100 cattle, the property of a former named Flanagan, near Roscommon. The cause of the outrage is not known.

In Ballina, county Mayo, the sub-commission of the Land Court yesterday made sweeping reductions of rents, averaging 50 per cent.

One thousand further applications have been sent to the Irish land commission.

Father McPhillips, Catholic curate of Athenry, has been lodged in Galway jail as a suspect. He was an active member of the Land League.

## GUITEAU.

Disatisfied with Robinson—The Insane Dodge.

WASHINGTON, Nov. 17.—When the court was convened at 1 o'clock Guiteau exploded again. It was plain he was dissatisfied with this morning's work. The officers endeavored to quiet him, but he was obstreperous. He told the court he was dissatisfied with his counsel. The court said it was satisfied. "I think," said Guiteau, "it is an outrage on justice that I should be obliged to appear here with incompetent counsel. I am on trial for a felony. There will be a row all the time till this thing is fixed. Mr. Scoville is doing splendidly, but—"

At this point the Judge told the prisoner that if he did not keep silence he would order him out of the court in robes. Guiteau said he did not care what the court might do, and he muttered considerably about the interest the American people took in his case, and complaining meekly of the way in which Mr.

Scoville had sat down upon him, relapsed into silence for the remainder of the day.

## MAXWELL CONFESSES.

**He Confesses the Murder—The Escape and Capture.**

MEMORIAL, Nov. 17.—Ed. Maxwell, who arrived here to-night in charge of Sheriff Knight, acknowledges that he is Ed. Maxwell, and that he and his brother Lon shot the Coleman brothers, but claims they did it in self defense. He disclosed many interesting features. Both the Maxwells were badly wounded in the arm, shoulders and face with fine shot. He says they went to Durand, intending to kill Sheriff Knight, for recovering that horse from them, and the Coleman's attempted to arrest them, with the result too well known. After the shooting they crossed the Chippewa river, and went into the Eau Claire woods, where they stayed ten days. The first four days they were without a mouthful of food. Their wounds disabled the arms of each. They frequently saw their pursuers. Twice Ed. had his gun leveled on Sheriff Coleman, but was prevented from shooting by Lon. He says they were shot at once while in the Eau Claire woods. It was probably the time when Dr. Branch shot at them from the old school house. They made their escape from the Eau Claire woods via Maiden Rock, stealing an old boat and paddling across into Minnesota, where he claims they have been since, or until they were apprehended in Nebraska. The prisoner arrived here shackled hand and foot, in which condition he now lies in jail, which is strongly guarded. He keeps on a bold front and never falters. No mob violence is now anticipated.

## BERNHARDT.

PESTH, November 17.—Sarah Bernhardt says: "Colombier never wrote a line of the book published under her name. It was all written by a young man named Gehan Sondau, whom I took out, and to whom I paid \$1,000 francs a month to get down my American traveling impressions for me. If Colombier were a man, I'd smash her head."

## INSTANTLY KILLED.

MADISON, Nov. 17.—John Rowdell, a farmer of Middleton, Dane county, was instantly killed last evening by a load of lumber falling upon him.

THE BEAUTY AND COLOR of the hair may be safely regained by using Parker's Hair Balsam, which is much admired for its perfume, cleanliness and dandruff eradicating properties.

## IS DROWNED.

MILWAUKEE, November 17.—This morning the body of Sylvester Dodge, of Wauwaton, was drawn from the river at the corner of Park street and Sixth avenue. His drowning was at first supposed to be the work of thugs, but a note in the pocket of his vest explained all. This was as follows:

"S. Dodge, Wauwaton, Wisconsin, is drowned."

The deceased was quite well-to-do as a stock dealer, but since last summer, when he was prostrated by lightning, he was never as sound in mind as he had been, and the theory is that in a momentary despondent mood he drowned himself. He had come to the city to purchase a marble mantle-piece for his elegant new house in Wauwaton.

It is generally conceded that a woman whose figure is not absolutely elegant never looks so well as when on horseback. Much interest has been aroused in feminine bosoms by the publication of a book entitled "Ladies on Horseback," by Mrs. Power O'Donoghue. The authoress treats her subject with much skill, but some of her views of female equestrianism are open to discussion. She holds the rather curious opinion that it is unwise to put children early on horseback. It hitherto has been thought that in riding, like dancing, the earlier taught the better. After a certain age it is impossible for a person to acquire the two requisites for good horsemanship—nerve and seat. Of course there are different degrees of horsemanship. Almost any one can mount a quiet steed and stick on by means of the reins and stirrups, but that can hardly be called riding. Such a person can never acquire that subtle quality, so difficult to describe, called a "good seat." It has always been and always will be a source of discussion between men and women as to which is the better method of riding—astride or on one side. Women always declare that if they were allowed to use men's saddles they would have greater control over the horse than they have now. Men assert that the side position confers as much power as the other, and that especially since the third pound has come into use, it is almost impossible for a woman to fall off unless the horse falls also. If the animal does come down, a woman impeded by her riding habit, has certainly greater difficulty in freeing herself from the saddle than a man has. But the dimensions of riding habits have been greatly curtailed recently, and many accidents are thereby avoided.

## HENRY'S CABBOLIC SALVE.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Tetter, Chapped Hands, Chilblains, Corns, and all kinds of Skin eruptions, Pimples and Pimples. BRIEFLETS.

A long felt want—a settled condition of the weather.

Rock River Encampment No. 3, I. O. O. F., meet this evening.

Marshall Hogan will bring suit against the county to recover the amount of his bill.

The Municipal court is trying a civil case to-day—John A. Collins against A. J. Russell and John Boub.

The Merry club will meet this evening, and all the members who want to be made merry should attend.

The St. Julien spring company received an order to-day from Oshkosh for 500 of their popular springs.

Janesville has turned out more prominent inventors than any other city of its size in the United States.

Professor Maroon's matinee carnival at Lappins hall to-morrow afternoon, lots of fun. Crisides and peanuts will be given away.

The weather would hardly have been consistent had it not rained all day yesterday, froze hard last night, and snowed to-day.

The bookstores are filling up with stocks of goods for the holidays, larger and more elegant than ever before known in this city.

The sale of reserved seats for the Rice Evangeline company will begin at Prentice & Evenson's on Saturday morning at nine o'clock.

The water is gradually receding here, but very slowly. It was never known before to maintain so high a stage at this season of the year.

The high price of wood and the moderate price of coal have created almost unprecedented demand for coal stoves this fall. The stove dealers have therefore had a busy time.

Mr. Winslow, proprietor of the C. O. D. store on the West Side, has rented the residence of Mr. B. B. Harrison in the Third ward, Mr. Harrison removing to Chicago.

"God Bless the Little Woman" a very popular song—written for Mrs. Gardfield—and all the latest songs by the best authors, for sale at Walter Holms' music store, South Main street.

James Riley was arrested for being intoxicated and taken before Judge Patton to-day, and pleaded guilty. He was sentenced to jail for two days, to pay a fine of one dollar and costs, the whole amounting to \$4.15, and to stand committed until the fine and costs are paid.

The Evening Wisconsin of Thursday evening says: "James McEwan, of Milton, Rock county, has carried to his prairie home one of Milwaukee's fair daughters, in the person of Miss Maggie Young, long a great favorite with the traveling public as stewardess on the Grand Haven line of steamboats. The marriage was performed yesterday by the Rev. M. E. Eversz.

The engine which was sent from Chicago was thoroughly tried again this afternoon, and proved an utter failure. The boys put it back in the engine house disgusted, and of course became impatient thought the Janesville firemen did not know a good engine from a bad one, they are mistaken. To attempt to throw upon the city an engine which was totally unfit for duty was an imposition made. If the Chicago office detection of the meanness.

The Beloit Free Press says the Beloit Bell Telephone Exchange controversy has been settled, and Express Agent G. A. Anderson has been advised by C. H. Haskell & Co., general agents, that Mr. C. E. Bross, Bell Telephone manager, of Madison, will put up the phones in this city at once. Mr. Haskell promises a first class exchange, and the rates will be \$4 per month for business houses, and \$2 per month for private residences. Beloit is generally up and dressed quite early in the morning, and it is a wonder the city hasn't used the telephone before this time.

The Guards had 400 invitations to their part next week printed from the Philadelphia steel plate, and although this number was judiciously used, there are demands for more, which cannot now be supplied as the entire number printed has been exhausted. An additional number of invitations have been telegraphed for and they will probably arrive from Philadelphia on Monday. Those who have been neglected will please leave their names at Dr. T. Judd's dental rooms. The secret of the Guards' armory next Friday evening will doubtless be the most brilliant ever known in the history of the city.

The Madison Journal says: "From an invitation received in this city from the Janesville Guards, we observe that

the Lake City Guards are to give an exhibition drill at a party tendered by the former company, on the evening of the 25th inst. This is the first notification of any such fact that has as yet reached the ears of the members of the Lake City company, and, of course, is somewhat of a surprise to them. It remains to be seen now whether or no there will be such a drill, but there is a firm belief in the minds of many that for the present, at least, the Janesvillians will have to content with the maneuverings of their own company." The placing of the Lake City Guards on the programme was a worthy compliment to the Janesville Guards very properly desired to bestow upon the Madison company, in the firm hope that they would accept the polite invitation, and notwithstanding the assertion of the Journal, it is believed the Lake City Guards will kindly accept the complimentary invitation.

Have you Catarrh? "Dr. Sykes' Sure Cure is an infallible remedy. Have you heard of it?"

DEATH OF GORDON LEONARD.

Mr. S. Holdridge, Jr., received a telegram to-day from Florida, announcing the death of Mr. Gordon Leonard, of this city, who died at Deland, in that State, yesterday. His remains are on the way to Janesville, and in regard to the time of his arrival here, Mr. Holdridge will receive a telegram from Chicago.

The deceased resided on South Main street, nearly opposite the residence of Mr. Holdridge, where he had made a pleasant home.

Mr. Leonard went to Florida two weeks ago with a view of selecting a home in that State, that he might escape the cold and ever-changing weather of this latitude. When he left Janesville he was in a fair degree of health, and therefore his sudden death will be a surprise to many of his old friends in Janesville and throughout the country. The immediate cause of his death was congestion of the lungs. He had lived in the city about sixteen years, and in the county for more than thirty years.

NEARLY ALL THE ILLS THAT AFFLICT MANKIND can be prevented and cured by keeping the stomach, liver and kidneys in perfect working order. There is no medicine known that will do this as quickly and surely, without interfering with your duties as Parker's Ginger Tonic. See advertisement.

PERSONAL.

Mrs. J. W. Sanderson will spend the winter in this city.

Mrs. F. G. Stevens is visiting relatives and friends at Independence, Iowa.

C. F. Osborne and P. E. Brown, old residents of Burlington, are at the Grand to-day.

The Rev. J. W. Sanderson, arrived in the city to-day, and will go to Mineral Point to-night.

Milton C. Skinner, of Chicago and N. A. Waterman, of Johnson, Vermont, are guests of the Myers house.

Mr. C. L. James, of the Eau Claire Daily Leader, is in the city to-day and will give the manufacturing institutions of the city a writing up. Mr. James is a son of the noted and successful English novelist—G. P. B. James—whose works have been widely circulated on both sides the Atlantic. He removed to the United States in 1850 and settled in Massachusetts. After he came to this country he was appointed consul to Venice, a position he held several years. The father of Mr. C. L. James, was a remarkable man and versatile writer, and his works will live for generations. He wrote about 100 volumes, some 80 original works, and his "Cavalier," published in 1859, is an instance of literary fecundity without a parallel in any other author who has written the English language.

A World of Good.

One of the most popular medicines now before the American public is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters as it is not a whisky drink. It is more like the old fashioned home set tea that is good for you. If you don't feel just right try Hop Bitters.—Vander Zee.

THE LOCK-UP.

Although both special committees appointed to confer on the question of providing a lock-up for temporary tramps agreed as to the practicability of such an institution, the county board of supervisors refused to take action on the question at present, and by a vote of 15 to 14, further consideration of the matter was postponed until the January meeting of the board. It has been suggested that a lock-up where tramps and vagrants could be kept over night, could be provided near one of the engine houses, or in some other convenient location, and that that place should be a sort of police headquarters. The argument offered for a lock-up is that it would be more economical for the county and better in many ways for the city. Tramps very frequently put themselves in the way of being arrested and taken to jail that they might have comfortable quarters for the night and two square meals all free of charge. This very generous and humane manner of entertaining tramps bogets tramps and in the course of a year the expense of caring for them becomes a very considerable burden to the country. The argument against the lock-up is that the jail is the proper place for tramps and vagrants, and the sheriff the proper person to see that they are safely put under lock and key during the night. This question will probably be discussed more thoroughly at the next meeting of the board.

P. S.—Since writing the above, the county board reconsidered the question, and the result will be found in the proceedings of the board.

Humbugged Again.

I saw so much about the merits of Hop Bitters, and my wife, who was always doctoring, and never well, teased me so urgently to get her some, I concluded to be humbugged again; and I am glad I did, for in less than two months' use of the Bitters my wife was cured, and she has remained so for eighteen months since. I like such humbugging.—H. T. St. Paul.

COUNTY GOVERNMENT.

The county board of supervisors are in session to-day. Among the proceedings on Thursday afternoon were the following:

Mr. Keeler, from the committee on equalization presented the following report which was adopted:

To the Board of Supervisors of Rock County:

The committee on equalization have had under consideration the county assessment for the year 1881, and recommended as a basis of taxation the valuation of the county at \$18,000,000 to be divided among the towns and cities as follows, to-wit:

Avon	275,000
Beloit	477,000
Bradford	718,000
Clinton	651,000
Fulton	955,000
Johnson	750,000
Janesville	2,200,000
Johnstown	307,000
La Prairie	117,000
Lima	573,000
Magnolia	100,000
Monroe	650,000
Newark	399,000
North	504,000
Porter	884,000
Rock	500,000
Union	690,000
Valley	732,000
Watkins	185,000
City of Beloit	1,800,000
City of Janesville	3,054,000
Total	\$18,000,000

A resolution offered by Mr. Keeler was adopted, authorizing the county clerk to procure the publication of the proceedings of the board in some weekly newspaper published in the county, and also to procure the publication of not less than 2,000 copies of said proceedings with the rules and regulations in pamphlet form, at an expense not to exceed \$200.

The county clerk was empowered to procure a case suitable for the reception of papers and documents pertaining to the business of his office, at a cost not to exceed \$50.

Mr. Kimball, of this city, offered a resolution, action on which was postponed till January, providing that a committee of three be appointed by the board to visit and examine assessable property, both personal and real estate, in each town and city of Rock county during the year 1882. The visiting and examining of such property to be done in conjunction with some resident of each town appointed by said town for that purpose. The said committee be instructed to report to the equalization committee of 1882, the compensation of said committee to be provided by the board.

Mr. John Winans was requested to make a statement in regard to the legal responsibility of the county in appropriating money with which to build bridges across navigable or meandering streams. He gave it as his opinion that money for such purposes could not be appropriated without first submitting the matter to a vote of the people of the county, but in the case of smaller streams the county can aid the towns in building bridges, or may build such bridges.

A number of bills were allowed to-day, among them being that of Justice Nolan amounting to \$1,521.30, being the amount of his bill.

The bill of Marshal Hogan was cut down from over \$800 to \$388.05.

The bill of Ed Smith reaching some \$500, was cut down to nearly one half.

The question of reconsidering the vote by which the resolution providing for a lock-up was postponed till January came up, and a motion to reconsider was carried by a vote of 14 to 13.

Mr. Greenman offered a resolution making the provisions of the original resolution to extend to towns and unincorporated villages having not less than 600 inhabitants. After some discussion the resolution was defeated.

The original resolution was then adopted by a vote of 15 to 12, and the amount to be expended on the lock-up limited to \$200.

THE WEATHER.

REPORTED BY PRENTICE & EVENSON, DRUGGISTS.

The thermometer this morning at seven o'clock stood 25 degrees above zero, and at one o'clock at 34 degrees above zero. Cloudy.

The indications as given by the signal bureau are as follows: For the lake region, colder southwest to northwest winds, partly cloudy weather, preceded by rain, in the lower lake region, lower temperature and rising barometer.

Respiration of the Heart.

J. M. Night, Syracuse, N. Y., writes: "When I first commenced using your BROMO BLOOD BITTERS I was troubled with fluttering and palpitation of the heart. I felt weak and languid, with a numbness of the limbs; since using, my heart has not troubled me and the numbness sensation is all gone." Price \$1.00, trial size 10 cents.

Sold by A. J. Roberts and Sherer & Co.

You had better cut out this address—"Dr. C. R. Sykes, 129 Madison St., Chicago," for you may need his "Sure Cure for Catarrh."

THANKS.

We desire to return our sincere thanks to our friends and neighbors, for the assistance in the hour of affliction.

Mrs. MARIA FELLOWS, Mrs. CHRISTEN DAY, Mrs. JEREMIAH DAY.

"What every one says must be true," that "Dr. Sellers' Cough Syrup" has no equal for coughs and colds. Try it. Price 25c.

CARPENTER MEMORIAL FUND.

All members of the Carpenter Memorial Fund Committee who have not made their report of the number of certificates sold, will do so at once, so that the treasurer can make his report to headquarters.

R. L. COLVIN, Secretary.

November 17, 1881.
